

CT Knowledge is a platform of “precision learning” where we offer over 100 three-minute engaging training videos which aim to help your team learn new skills. As a technology provider, we are continually striving to push the limits in how technology can improve our own and our customer’s existing operations. We know that training your team on basic IT skills, utilising your tech platforms most effectively and understanding simple security measures is crucial in growing and protecting your business, saving your team time and importantly developing their IT knowledge base.

Content is easily accessible

The segmented nature of the CT Knowledge materials means that the content can be easily accessed, set aside, and picked up again with ease.

Small, digestible content

Increase learner comprehension and knowledge retention through the use of media-rich learning materials and bite-sized content.

Content can be easily removed and updated

As best practices evolve and internal processes expand, content can be removed, updated and restructured to fit any company need.

Over 100 helpful tutorials

Over 100 3-minute video tutorials focused on building and strengthening IT knowledge within your business.

Develop personal skills within your team

As well as IT-related content, there is also important bite size training videos covering Cybersecurity, Management skills, and Mental Health training.

Key content for every aspect of your business

Through our CT Knowledge portal, users can click, swipe and tap content on their computer, laptop, tablet or phone making it easier than ever to access important IT training courses quickly and easily.

With what is known as ‘precision learning’, there are over 100 three minute engaging training sessions which aim to help your team learn new skills and how to make the most of your most important business platforms including O365, Sharepoint, Windows 10 and Excel.

There are also important bite size training videos covering Cybersecurity, Management skills, and Mental Health training.
