

Cloud Telecoms Solution

Stay in control of your business phone system the PBX of choice - 3CX who based on your concurrent calls, can cut your licensing costs by 80%. We can host your 3CX system or integrate it into additional IT solutions such as Cloud Backup, Internet Connectivity or Managed IT Support. Our turnkey telecoms solution means you get a full out-of-the-box solution including licensing, private cloud hosting and SIP rental when you choose CT as your telecoms provider of choice.

What are the benefits of a cloud-hosted phone system?

Cost efficiency

Save up to 80% per year with low licensing prices and free calls for employees on the road or at home.

Scalability and flexibility

Maintain control by customising your phone system to fit your business needs. Choose your hardware, phone numbers, cloud provider and hosting preference. Opt for self-hosting or let us handle the hosting hassle. Our quick setup wizard simplifies deployment, automatically configuring phones and SIP trunks for you.

Flexibility and freedom to work from anywhere

3CX-hosted systems streamline configurations and firmware updates, cutting down on admin and maintenance time. Easily manage extensions without extra charges for mobility. Enjoy browser-based video conferencing and corporate chat, alongside standard web and Windows communication features.

Communication is key. Keep your business connected whilst we take care of your security & compliance.

What type of organisation is this solution suited for?

Cloud-based business phone systems like 3CX are ideal for any sized business that have concurrent calls as they're billed per system and not per user. This is particularly beneficial for **larger organisations that incur a lower call volume.**

On-premise vs hosted/cloud

Choosing between on-premise, hosted, or fully cloud phone system depends on your **business infrastructure and resources.** On-premise PBX suits those with existing infrastructure and a dedicated IT administrator. Alternatively, hosted or cloud systems streamline management, outsourcing hardware and infrastructure whilst you retain control over data and settings.

Benefits at no extra cost!

-  App-free web conferencing
-  Live chat & call with website visitors
-  Business SMS & WhatsApp messages
-  Advanced call centre features & reports
