

Tinkle Telecoms Solution

We're pleased to offer the benefits of cloud communications, typically associated with big businesses, at an affordable cost via **Tinkle, the go-to cloud-first communication service that grows with your business.**

The simple, reliable and easy-to-use technology gives you instant access to our extensive phone system features, call handling options and the management of reports and analytics.

Why Tinkle?

A cloud communication platform for any business

Proprietary SaaS Platform

The proprietary Software as a Service (SaaS) platform provides optimal performance and scalability for your business needs.

Integrated Billing & Inclusive Call Plans

With an integrated billing system, you can simplify all your communication expenses into an easy-to-understand format. There are flexible plans to support any size business.

Highly Available and Redundant

By having redundant infrastructure and failover mechanisms in place, you can rely on uninterrupted communication for your business.

Feature-Rich and Easy to Use

Advanced features mean you get seamless communication, helping you streamline your workflows without complicating them. Here's just a few of the exclusive Tinkle features:

- **Music on hold**
- **Custom voicemail**
- **Call routing and menus**
- **Ring groups**
- **Opening hours and redirects**
- **Call forwarding**
- **Switch caller ID**
