

Managed IT Support

Bronze package

Our award-winning Managed IT Support service manages your IT needs by bringing it back to basics. Our Bronze package is ideal for small businesses wanting effective IT support with limited resources. With on-call assistance at an affordable price, our Bronze package is designed for efficiency and simplicity, keeping your business operating at full strength. Our support remains fully aligned with your business goals, delivering hassle-free IT solutions tailored to your needs.

Simple, transparent & uncomplicated

The Bronze package is ideal for small businesses that prioritise **simplicity, efficiency and affordability**. We're here to provide support when you need it, ensuring your business runs smoothly without the need for proactive strategic alignment.

We pride ourselves on **staying close to your business** with annual account reviews & monthly reports.

We ensure your IT grows with your business. With our **per user monthly billing model**, you will only be charged for the support you need; no frills, no hassle.

Our onboarding process for all new IT Support customers enables a smooth and controlled handover. The **Early Life Support process** includes early engagement prior to contract signature to give us time to fully understand your business.

We keep your data secure with backup monitoring, as well as server management and monitoring.

With our per user monthly billing model, you will only be charged for the support you need; no frills, no hassle.

The Bronze package includes e-mail filtering and endpoint security to keep cyber threats at bay.

Our comprehensive onboarding process means we can provide support efficiently and smoothly to suit your business needs.

Need a more tailored approach to your IT?

Our Bronze package is designed to suit the needs of small businesses that prioritise **simplicity, efficiency and affordability**. We're here to provide support when you need it, however if you require more proactive strategic alignment, our Silver, Gold and Platinum packages might be the solution for you.
